Programming Techniques Project

(Logic Simulator)

Team #8 (Section-2)

Workload-Division

Phase-1

Name	Participation
	getString() in input classShowString() in output class
B.N:38 ID:9203760	
معاذ محدد حسن بيومي B.N:25 ID: 9203532	- Gate Drawer Functions in Output class - CreateSimulationToolbar()
ممدوح أحمد مجد عطية B.N:26 ID: 9203543	- getUserAction()
مهاب مجد مجد زغلول B.N:28 ID: 9203568	- CreateDesignToolbar()- CreateGatesToolbar()- ClearGatesToolbar()- Test code

Phase 2

SIMU class Add label class Edit label class Edit label class Undo class Redo class Is Component function in App Manager Gates Images creation User Interface enhancement undo function in App Manager redo function in App Manager Get List function in App Manager Get List function in App Manager Add Connection , connection classes Edit Connection class Copy and Paste , Cut and Paste classes Delete class Select class Add Component function in App Manager Addclipb function in App Manager Clip Execute Function in App Manager Remove Component function in App Manager Remove Component function in App Manager Save and Load classes Change Switch class Exit class		A11 C
